CHINA FLAG—NEW SPARK SIGNAL CODE.

Notice is hereby given that on the 1st February 1918 the appended new Chinese Signal Code will come into operation on the Steam Signal Stations of the Maritime Customs, at the French Municipal Steam Signal Station at Shanghai, and at the British Steam Signal Station at Wanchow.

Copies of the Code in single sheet form can be obtained from the several Harbour Masters' offices of the Maritime Customs.

CHINA FLAG SIGNAL CODE
(Operative from the 1st February 1918.)

GENERAL EXPLANATION.

1st The Signals are made by means of certain Symbols, each corresponding, for certain purposes, to a number:—

2nd The Signals are hoisted at the yard-arm and masthead of the Steam Signal Mast and have the following general characteristics:—

Typical and Conventional (Precedence) Signals:—

- (1) Four symbols at one yard-arm showing the position of the centre.
- (2) Three symbols at the other yard-arm showing the direction of motion and/or certain characteristics (see Tables Nos. 1, 2, and 3).
- (3) One symbol at the masthead showing the time the warning was issued by the Observatory (see Table No. 4).
- (4) One symbol at one yard-arm showing the region threatened (see Table No. 5).
- (5) Two symbols at the other yard-arm showing the general direction of the wind (see Table No. 1).
- (6) One symbol at the masthead showing the time the warning was issued by the Observatory (see Table No. 4).

The two upper symbols of group (a) indicate by their corresponding numbers the latitude and the two lower symbols the longitude at the centre of a circle of specified size within which the centre of the typhoon is depression feet. The symbols for longitude give the north and south only; that, its distance longitude 115.

The two upper symbols of group (b) indicate the direction in which the typhoon is travelling (see Table No. 1) or, alternately, certain conditions of the typhoon (see Table No. 2). The third and lower symbol of group (b) indicates the radius of the circle whose centre is shown by the latitude and longitude. This symbol may also indicate degree of intensity. In the case of a continental depression it indicates that it is such, and the corresponding latitude and longitude is the centre of an indefinite area affected (see Table No. 3).

Caution.—It would be clearly understood that the position indicated by the latitude and longitude signalled does not purport to be the position of the centre of the typhoon. It indicates merely the centre of a circle of a specified radius within which the centre of the typhoon is believed to be.

TABLE No. 1.—DIRECTION SIGNALS.

Two upper Symbols or more.

These indicate the direction in which a typhoon is travelling or the direction from which a gale may be expected.

Note.—The numbers corresponding to the symbols indicate the number of points from North.

TABLE No. 2.—CONDITION SIGNALS.

Two upper Symbols or more.

Forecast. Two centres. Directed wholeness. Backstop of very slow. Backstop. Filling up.

TABLE No. 3.—RADII AND INTENSITY SIGNALS.

The lower of three Symbols.

Forecast. Two centres. Directed wholeness. Backstop of very slow. Backstop. Filling up.

TABLE No. 4.—TIDE SIGNALS.

Single Symbol at masthead.

Forecast. Two centres. Directed wholeness. Backstop of very slow. Backstop. Filling up.

TABLE No. 5.—GALE SIGNALS.

One Symbol at masthead.

Forecast. Two centres. Directed wholeness. Backstop of very slow. Backstop. Filling up.

It is important that seamen should realize that the position of the centre of the typhoon as signalled in this position according to the data possessed by the Observatory at the time of the issue of the warning. That data may be as much as 12 hours old. Thus, if the hour signal indicates that the warning was issued "This morning," it may be that the position corresponds to data possessing yesterday's accuracy.

If the signal "Dispensing" is made, it indicates that there is reason to believe that the barometer predicted and, consequently, the intensity of the typhoon are increasing.

If the signal "Exceptional velocity" is made, it indicates that there is reason to believe that the rate of progression is 25 per cent or more greater than the average rate.

If the signal "Positive uncertainty" is made, it indicates that the data possessed is unreliable and that the position signalled is a mere probability.

The several tracks which a typhoon may follow in the several months are very varied, and the velocity of progression is liable to be variable. It is not only so upon a typhoon maintaining a velocity indicated by previous position of its centre. This velocity is liable to increase very suddenly. Seamen are recommended to study from available sources the tracks and average velocities for the month and locality concerned. In the absence of more exact information the following table of velocities in knots for the several latitudes may be useful:—

Latitude.	Before Reckoning.				After Reckoning.			
	Ordinary beam.	Mean.	Enlarged velocity as suggested.	Maximum assumed.	Ordinary beam.	Mean.	Enlarged velocity as suggested.	Maximum assumed.
17° to 20°	3 to 20	8	10	21	3 to 21	4	14	22
16° to 20°	4 to 20	10	12	24	4 to 24	5	16	25
20° to 25°	5 to 25	12	15	28	5 to 28	6	18	29
25° to 30°	6 to 30	15	18	32	6 to 32	8	20	33
30° to 35°	7 to 35	18	22	36	7 to 36	10	22	37
35° to 40°	8 to 40	20	25	40	8 to 40	12	24	41
40° to 45°	9 to 45	22	28	44	9 to 44	14	26	45
45° to 50°	10 to 50	25	32	48	10 to 48	16	28	49
50° to 55°	11 to 55	28	36	52	11 to 52	18	30	53

Seamen should realize that, whatever may be the probability of a certain velocity in a given case, there is always the possibility that it may be greatly exceeded. The tables given are to make allowance for extreme velocity.

TYPHOON SIGNAL.

A typhoon within 35 miles of lat. 18° N., long. 125° E., travelling E.R. Warning issued this morning.

5. The articles required are described in the classified schedule annexed, and information as to supplies, etc., may be had on personal application at the hospital.

6. A separate tender must be sent in for each article. It must be accompanied with samples of all articles excepting those of European manufacture.

7. Tenders will be opened by the Senior Medical Officer at the General Hospital at the appointed time in the presence of two interested and duly qualified persons.

8. Tenders to be accompanied in the manner described in paragraph 1 and on the return the words "Tender for hospital supplies" written. Each tender must contain not only the price, but the total value of each item of supply entered in a separate column, the items in which must be indicated by checking the aggregate value of each article tendered.

9. Each tender must be accompanied by a deposit (in Government promissory notes or Bank receipts) or earnest money of the amount stated against each article. When opened and the tender is accepted, the deposit for the total estimated contract-money will be returned. In default of such deposit the tender will be rejected, nor will any tender be received after the time fixed for the opening of tenders. As each bill is received, the deposit will be returned on Government securities immediately and to the extent or soon as they have lodged the security mentioned in paragraph 8.

10. No person taking a tender shall be allowed to withdraw his tender for the space of thirty days from the date thereof, and in the event of his so doing his deposit shall be forfeited to Government.

11. The successful tenderer must, within three days from date of receiving intimation that his tender has been accepted, lodge security, viz., 10 per cent on the total value of his contract, failing which his deposit will be forfeited to Government.

12. No advance of cash will be made to the contractor.

13. Bills or promissories will be passed by the Deputy Assistant-Comptroller for payment at the Medical Bank after delivery of the articles.

14. A fee, not exceeding 10 per cent of deposit money will be paid for any intimation of the stipulations of the tender, and if frequently required, the contract will be certified and the security returned to Government.

15. The contract must not be sublet. The contractor's security will be returned to him immediately on completion of his contract.

16. The Senior Medical Officer reserves to himself the right to accept or reject the tender for any one or more of the articles tendered for by the successful tenderer without accepting any reason for so doing.

17. The Senior Medical Officer also reserves to himself the right of rejecting tenders without assigning any reason for so doing.

18. The successful contractor will be required to pay the value of the proper stamp duty on the contract.

19. Government promissory notes lodged as earnest-money or security deposited for a period of twelve months or less shall not be ordered made to the Senior Medical Officer but shall remain at the disposal of the Government. The Government will appropriate against the notes as per G. O. No. 1395, dated 1st March 1916, authority in that effect. Being duly agreed in the contract or other documents annexed by the depositors.

20. With reference to the stipulations contained in the preceding paragraph, No. 16, the tenderer should attach a certificate to his schedule or schedule to the following effect:—

"I, the tenderer, agree to have the Government promissory notes or Bank receipts deposited to Government in case of my failure to undertake the contract."

21. No articles shall be supplied to the hospital except on authority signed by the Senior Medical Officer or by some responsible person authorized by him in writing to do so.

22. Particular forms of tenders can be had on application at the General Hospital, Madras.

23. If samples submitted are approved and tender accepted, the samples retained will be returned on payment of supply. If rejected, the samples will be returned. Tenderers are desirous to understand that, if the tender is rejected, the balance of the articles or articles required shall be in every way equal to the approved sample. The signature of the Senior Medical Officer to be fixed on this point.

24. The number of quantities entered in the form of tender is the probable minimum quantity or quantity which the Senior Medical Officer and his staff will be supplied, but the contractor will be under an obligation to supply such larger quantity as is increased quantity on the Senior Medical Officer's request (see tender form). The Senior Medical Officer will not be bound to accept the full tender or quantity noted in the schedule.

SALE OF RIGHT TO MANUFACTURE SALT.

Two public notices have been referred to the right to manufacture salt under the monopoly system in the Kottapalli taluk of the Tanjore District in place of, not less than 10 acres each will be sold again by auction by the Assistant Commissioner of Salt, Alkali and Chemical Department, Cingelapet taluk, at Tanjore on 7th February 1918 at 12 noon subject to the following conditions. The total area to be sold will be about 350 acres.

1. A deposit of Rs. 5 must be made by every intending bidder previous to bidding.
2. No person will be allowed to bid on behalf of another unless he holds a power-of-attorney from him authorizing him to do so.
3. The selling officer may for valid reasons refuse to accept any bid and in cases of dispute his decision shall be final. If, for any reason, the highest bid is rejected, the selling officer may at his discretion either accept the next highest bid or put the lot up to auction afresh.
4. The sale will be subject to confirmation by the Board which may either accept or reject the bid at its discretion. Such confirmation will be tantamount to an acceptance of the bid.
5. As soon as possible after auction is completed, the deposits made by successful bidders will be returned to them.
6. As the auction proceeds, each successful bidder shall, at once, if so required by the selling officer or otherwise at the time of the day's sale, make a further deposit equal to one-fourth of the purchase money. Should he fail to do so, the deposit made by him under condition 2 above will be forfeited and the right to manufacture in the place will be put up to auction again on the above conditions or otherwise disposed of as the Board may determine and the delinquent may be debarred from bidding again in any subsequent sales.
7. On receipt of intimation of the final acceptance of the bid, the successful bidder shall at once pay the whole amount of his bid after deducting from it the amount of deposits already paid by him. Should he fail to do so, the deposits made by him under conditions 2 and 3 above will be forfeited and the right to manufacture in the place will be sold or otherwise disposed of as the Board may determine.

8. Besides offered under condition 4 it will be on the risk of the delinquent bidder, who will forfeit all paid and, in the event of a loss, will be required to make good the deficiency between the amount payable under the terms of the original sale and that payable by the successful bidder at the sale. In the latter case the forfeited deposits will be deducted from the loss arising from the sale and the remainder, if any, will be returned from the delinquent to the successful bidder. Should, however, the forfeited deposits be greater than the loss by reason of the whole of such deposits will be applied to Government. The delinquent bidder will be similarly liable if the full price is disposed of otherwise than by resale and such disposal results in loss to Government as compared with the original sale.

9. License to manufacture salt under the monopoly system will be granted to the successful bidder subject to the following special conditions. The prescribed form of license has been sent to the office of the Inspector, Revenue circle, at Tanjore:—

(a) The price should be allowed as directed by Government and should be worked as directed by Government at the rate of 1000 rupees in the district of the Revenue circle, which is now Rs. 15-2-0 a year.

(b) Manufacture should be carried on as directed by Government and the licensee should undertake to comply with all orders of the Inspector in respect of the various processes of manufacture and should also see that compliance is made.

(g) The successful bidder should accept a lease (the form of which may be seen at the Customs Office, Yapahiti). The term of such lease will be initially for five years and the license granted in such case will be in force only during the continuance of such lease.

(h) The license must entitle the party to Government if required to do so as a native being gives at the time of any manufacturing process.

(i) The compensation will be paid to the licensee when the pines are surrendered under condition (a) or when the pines are returned to the factory, in extended lots and for manufacture of salt for general sale or the vast of the lease referred to in condition (b) being terminated before the expiry of the period fixed.

(j) The work of manufacturing and transporting the blocks between the receiver and contractor I and between contractors I and II will be undertaken by Government and the cost recovered from the licensee proportionately to the amount paid by such. Particulars of the amounts payable will be given to each licensee by the Inspector, Ennsa-Cirio, and should be laid to credit the account due within the time allowed in the notice. It will be recovered in the manner laid down in notice of all the Madras Fish Act of 1903. The licensee will be required to undertake the work of setting up drying racks in the residences and on the vessels if necessary, as well as the work of feeding, conveying and conducting, and feeding installations.

(k) Any further particulars that may be desired can be obtained either at the Ennsa-Cirio Office, Yapahiti, or at the Assistant Commissioner's Office, Chingapat sub-division, North Bant's Road, Madras.

Assistant Commissioner.

TENDERS FOR THE COVERING OF SALT KEAPS.

Tenders will be received by the Assistant Commissioner at the office of the Assistant, Madras Depot Circle, up to 3 p.m. on 20th February 1918, for the following work in connection with the covering of salt keaps at the Madras Depot of the salt manufactured during the season of 1916 in the Province of the Madras Circle.

If the quality is not up to the present standard of manufacture of the same in England or acceptable as a first cost, such valueless being assigned by the aforesaid in respect of amounts allocated in India and by the Food Controller to England, the same will be assigned as second in England, and will be accepted by the aforesaid, but the loss will be assigned as second in England by the Committee and any adjustment in payment necessary will be made by the Food Controller through the Tea Commission. All loss will also be assigned to England and shall be made by the Food Controller or his nominee in respect of defective produce. The above system of pricing, including the quality of the tea leaves and tea leaf, must be modified and never must be in any condition before acceptance for shipment.

The current price, which will be fixed at the port of shipment, will be calculated as follows:—

I.—Tea leaf selling in the London market.—The average London auction price realized in the years 1912, 1913 and 1914 less 50% of a penny for intermediate charges and one and one-half pence for payment cost of production as set at exchange 1s. 6d.

II.—Tea leaf selling in the Calcutta or Colombo market.—The average Calcutta or Colombo auction price realized in the years 1911, 1912 and 1913, plus one-half penny or half an anna for payment cost of production and payment of shipping (freight) cost of shipping on Calcutta or South Indian ports, and seven and one-half pence for cost of shipping on Calcutta or Colombo. In order to achieve the balance of making data for the cost of such goods, the aforesaid cost of shipping (freight) cost of shipping on Calcutta and Colombo is not deducted at 10% on any port, but is made to cover the difference between the cost of shipping and such charges.

III.—Tea leaf selling partly in the London and partly in the Calcutta or Colombo market.—The average sale price realized on both Calcutta and Colombo in the years 1911, 1912 and 1913 with the addition and deduction specified in I and II above.

IV.—Tea leaf selling three times on markets other than the London or Calcutta or Colombo markets, and partly on outside markets and partly in London or Calcutta or Colombo and outside with no pre-war sales.—The price paid for such tea.

The average for the three years should be calculated by dividing the total sale proceeds by the total cost for the three years, the result being worked out in two places of decimals of a penny or anna, on the cost rate. Where a number exceeds 100 or more, and a number manufacturing its own, separate figures should be provided for each unit. The figures should be made, if possible, to conform to a standard of measurement. In the case of tea, the average of which is not subject to a standard measurement, the figures of total crop and total production should, if possible, be certified by the Director who will be the loss or by the Advisory Committee.

Tea will be paid for in India. Two one and (in the case of all tea) second class assigned to the War Office will be assigned from the payment of export duty will be paid by the Food Controller and should be included in the list of all. The delivery of the tea is not intended for will be taken in equal monthly instalments as far as possible, at intervals of one month, from the 1st August 1918, payments made in August, bearing interest at 6% per cent per annum from the 1st August. Producers will be responsible for warehouse charges and insurance for tea monthly after the first period by the aforesaid for the entire of the tea at the warehouse, the loss of tea being payable warehouse charges after that period but not insurance charges, or no insurance will be effected in warehouse loss.

In order to enable the aforesaid to assist the aforesaid with notice, the following information report of such nature controlled in India should be furnished to him without delay, on a form which will be supplied on application to the Collector of Customs, Madras:—

There were 534 calm hours during the year. The constant corresponding to the above numbers is represented by a S. E. by S. wind, blowing with a uniform daily velocity of 20 miles.

Weather Summary.—The following is a summary of the meteorological conditions at Madras during 1917.

Pressure.—The mean monthly pressure was 30.025 inch above normal in January and below normal during the rest of the year, the deficit being greatest in the months of October and December about 0.040 inch. The highest daily mean was 30.134 inch on January 9.

Temperature.—The mean temperature of the day was above normal in January and September, below normal in June and September and about the average during the remaining months of the year. The maximum shade temperature was below normal in June, August, September and December and normal during the rest of the year. The highest temperature was recorded on May 26 (102° F.). The minimum in shade was 58 below of the average in May and June and in excess in January, February and November. The lowest temperature recorded was 56.7° on February 19. The highest sea maximum was 106° on February 25 and the lowest on grass was 51° on February 20.

Humidity.—The percentage of humidity was above normal from July to September and almost 50 below from normal during the rest of the year. The driest day in the year was June 12, while the humidity was 60 on 41.

Wind.—The wind velocity was above normal in January, normal in February and April and below normal throughout the rest of the year. The wind direction was nearly normal in all months except in January when it was 18 points towards west.

Cloud.—The weather was more cloudy than usual in February, September and November and less cloudy during the other months.

Sunshine.—The percentage of bright sunshine was above normal in April, May and July and below in all other months. The total number of hours of bright sunshine during the year was 1030 as against 1015 in the previous year.

Rainfall.—Rainfall was in excess of the average from June to October and in December and in deficit during the rest of the year, the greatest excess being 0.16 inches in October and the greatest deficit 0.16 inches in November. The total rainfall for the year was 41.08 inches on 161 days. The heaviest rainfall, on one day was 2.6 inches on October 20.

Storm.—A depression which passed in the Bay about the 21st October, developed and moved in a north-westerly direction, giving heavy rain in the north of the Presidency and killed up near Pudukottai about the 12th October. Another storm, which entered the Bay from the east about the middle of November created equally wetness at Madras, though weather was also experienced on the Madras Coast during the beginning of December.

APPENDIX 10

The Trustee is pleased to make the following appointments:—

(3) M.R. Sy. P. Appalannachandam, Supervisor of Elementary Schools, Kilkumbhara sub-range, and retired from Public Accountant Inspector of Schools, Perungudi charge, to act as Personal Architect in District Inspector of Schools, Aruppukottai district, on his own salary in the cadre of Sub-Assistant Engineer during the employment of M.R. Sy. P. Appalannachandam. Has on other duty as such further orders.

(5) M. R. Sp. B. Bergmann, *supervisor of elementary schools, Partskiper sub-region, not as full Assistant Inspector of Schools, Partskiper region, in the Preliminary sheet No. 43, Mofna, 23rd January 1912.*

SCHOLARSHIPS FOR THE SCIENTIFIC STUDY OF SANSKRIT AND ARABIC—1913.

Two State scholarships for the study, not of Sanskrit and the other of Arabic, by Fellows will be awarded in 1913. The scholarships will be of the annual value of £400 each and will be payable in Europe for a period of two years. The scholarship-holder will be required to pay three University fees. Language scholars at Oxford or Cambridge will be expected to teach a corresponding student and permission to join a college will only be granted in case assistance in the University is not otherwise possible. In the case of a language scholar having to join a college at Oxford or Cambridge his allowance will be increased to £450 a year to cover his additional expenses incident.

3. The scholarship will be open to well-qualified students with previous study for several studies and to graduates already employed as Professors of Sanskrit or Arabic in India.

4. In the case of the Sanskrit scholarship the following conditions should be fulfilled:—

Some elementary knowledge of French and German should, if possible, be acquired by the scholar before leaving India.

In entering the scholar, regard will be paid to the following studies:—As the end stage of Eastern literature is known necessary for a scholar to select some special field of Sanskrit literature in which to specialize, the student of the special branch of study should be made in India and the present preparatory studies should be limited to the subject known for Europe. Accordingly if a scholar wishes to specialize in:—

(a) Veda or philology, he should have some knowledge of Latin and Greek;

(b) Philosophy, he should have studied some of the systems of Indian philosophy in the original texts and have read some Plato and Aristotle;

(c) Post Vedic literature, his reading should have extended considerably beyond the limit set of the system prescribed for the B.A. Examination of our Indian University.

5. Before a State scholar leaves India to take up his scholarship, his parent or guardian will be required to state that he has consented with the Government to the University of India for India a sum of £25 for initial expenses.

6. Candidates desiring to apply for the scholarships should submit their applications to the Director of Public Instruction as soon as such, but not later than the 1st March, 1913.

Applicants should give detailed information on the following points:—

(1) Educational qualifications, general and special.

(2) Present occupation.

(3) Age.

(4) Physical fitness.

(5) Native place (name and district) and class or community to which candidate belongs.

(6) Whether a candidate has the consent of his parent or guardian to proceed to Europe.

(7) Address in India.

(8) Subject in which candidate wishes to specialize.

7. Certificates of conduct and character and a written understanding that the applicant if awarded a scholarship will, during his term, devote himself entirely to the study of the subject for which the scholarship will be awarded should accompany the application.

8. Further particulars may be obtained by reference to the notification relating to State scholarships, published in the Fort St. George Gazette, Part I-B, dated 24th June 1912.

Madras, 11th January 1913.

J. H. SEQUE,
Director of Public Instruction.

LEAVE AND APPOINTMENT.

THE QUEEN MARY'S COLLEGE FOR WOMEN.

The Queen Mary's College for Women is a Government College which prepares students for the Intermediate Examination of the University in the sciences subjects and in the subjects required for group III and also for the B.A. Degree examination (Pass course) in Part I and group V of Part II.

All present students taking groups I and II of the Intermediate course attend lectures at the Presidency College.

The College is affiliated to the University of Madras in group III of the Intermediate course, and in group V of the B.A. Examination.

The aim of the College is education in the widest sense of the term, and the Principal and staff exercise a careful care over the moral and physical welfare of the students and reside in the College house.

The practice of their own religious observances by students of all sects is encouraged by the College.

The Principal of the College is Miss D. de la Hay (B.A. Honours Diploma—Oxford).

Professor: Miss D. C. MacCormack (M.A.—Oxford).

Additional Professor: Miss H. J. Roberts (M.A.—Oxford).

Assistant Professor: Miss I. Goucher (B.A.—Oxford).

Do. Miss T. Joseph (B.A. Honours).

Do. Miss Doreen Hendon (M.A. Honours).

Additional Lecturer: Miss M. O. Alexander (M.A.—London).

The fees are listed at the following rates:—

	Intermediate.		B.A. Examination.	
	First part	2nd session.	Part I.	2nd part of Part II.
	Rs.	Rs. A.	Rs. A.	Rs. A.
Long term	15	37 9	27 8	17 8
Short term	5	15 8	18 8	20 8

The College offers a variety of scholarships:—

Widow scholarships at Rs. 25 per annum.

College scholarships at Rs. 8 per annum for the Intermediate course and Rs. 10 for the B.A. course.

Scholarships taking the form of whole maintenance of fees and other special scholarships.

In all cases these scholarships can be awarded only to applicants who have good qualifications and who are certainly in need of such assistance.

The College is located on the Marina. New buildings have been constructed, which provide comfortable and healthy accommodation for students.

Board accommodation is organized in three sections:—

(a) European—Rs. 24 per annum.

(b) Indian Christians—Rs. 20 per annum.

(c) Other Indians—About Rs. 15 per annum.

These charges cover all necessary items of board and lodging.

Applications for admission should be addressed to the Principal, Queen Mary's College for Women, Mylapore Post Office, Madras. Printed forms of application can be had from the Principal. They should give the full name, age, date or street of the applicant, information as to previous education (if possible a satisfactory school-leaving certificate should be attached) and the course of study desired. If this is for the Intermediate examination, the green sheets should be sent with the application for Part I.B. and the subjects for group III, if this is selected. They should also state whether board accommodation is required, and if so, in which section.

Applications should be signed by a parent or guardian who should indicate his official position or social status.

The College will re-open after the vacation season on Monday the 9th July 1916.

Queen Mary's College for Women, Mylapore,

Scholarships will also be awarded to other pupils of promise whose pecuniary circumstances are certified by the head of the school to be such as to prevent them from prosecuting their studies without assistance. The claims of those parents of the community who are unable to send their sons will, other conditions being equal, be first considered.

(4) Candidates who are preparing for a group certificate or a diploma shall have precedence over those who are studying single subjects only.

(5) No student shall be allowed to hold at the same time more than one scholarship. If eligible he may, however, be allowed which he will hold, and the scholarship thus not free will be awarded to the next most deserving student.

(6) The candidate shall bind himself to prosecute his studies in the subject in which he has passed and for which he is receiving a scholarship in a recognized industrial school.

(7) Scholarships are *not* to be subject's will be awarded for pupils during the first three years of a minimum of 14 hours a week in industrial work, but the Director of Industries reserves to himself the right to award a double scholarship to pupils during the whole of their time in industrial work if he considers that circumstances warrant his doing so.

General Regulations.

All applications for scholarships available under this notification should be submitted to the undersigned by the 1st November of the instance in which the pupil studied in 1917 through the corresponding of the institutions in which he stands to study on printed forms which may be obtained from the office.

2. All applications for scholarships may be deposited on the results of the Government Technical Examinations must reach the Director of Industries before 11th April; other applications must be submitted within three weeks of the publication of the examination results on which they depend. These submitted after the prescribed date will be liable to rejection for that season.

3. Any scholarship awarded in the course of the period for which it is to be subject's will be awarded for the ensuing period to an eligible applicant in the same year of study at the holder of the scholarship awarded.

4. The name of selected candidates will be notified by the Director of Industries in the Port St. George Gazette.

5. Hours of instruction may grant leave without deduction or loss of scholarship for a period exceeding one month in the case of candidates who are absent in consequence of sickness; but if the leave exceeds that period no allowance is to be granted for the excess period. Casual leave without deduction or loss of scholarship may be granted for paid and sufficient reasons for a period not exceeding 16 days in the year, provided such leave does not completely prevent an assumed general business. Under the above conditions leave for scholarship holders may be granted in the kind of the institution, but must be reported to the Director of Industries. If a scholarship holder absents himself without paid leave on the foregoing day after the vacation for the institution, the scholarship for the vacation is liable to be withheld by the Director of Industries.

6. No person receiving a scholarship under this notification shall be permitted to hold another scholarship provided wholly or partially by Government, without the special sanction of the Director of Industries. Such sanction will be granted only for very exceptional cases.

7. Where the rules of award cannot be closely assumed a further competitive examination among those who are eligible for scholarships will be ordered.

8. All scholarship holders under the above rules are liable to forfeiture for ill-conduct, misconduct, irregularity or attendance or failure to make due progress or to secure annual progression.

9. A scholarship holder in any class shall cease from the beginning of the month in which the holder joins the Government shall not continue to be drawn after he is transferred to the class. The scholarship are payable monthly.

PUBLIC WORKS DEPARTMENT.

NOTIFICATION.

Fort St. George, January 25, 1912.

INDIAN PUBLIC WORKS DEPARTMENT AND INDIAN STATE RAILWAYS.

REGULATIONS AS TO APPOINTMENT OF ASSISTANT ENGINEERS.

[The Secretary of State is hereby giving notice that the Regulations will come into force on the 1st February 1912.]

NOTICE OF OPENING OF APPLICATIONS IN 1912.

It is the present intention of the Secretary of State for India in Council not to appoint any European or Assistant Engineer in the Indian Public Works and State Railway Departments in 1912. Applications for appointments will, however, be accepted from Indians who are qualified under Regulation 5, and should be submitted not later than 1st February 1912 and not later than 31st July 1912. Candidates must have attained the age of 21 and not attained the age of 34 years on 1st July 1912, save as provided in Regulation 5.

1. I shall further advise the Secretary of State for India in Council with, during each year, make a number of appointments of Assistant Engineers in the Public Works and State Railway Departments of the Government of India.

In making these appointments he will act with the advice of a Selection Committee, including at least one eminent representative of the engineering profession.

2. Applications for the appointments must be made on a printed form to be obtained from the Secretary, Public Works Department, India Office, Whitehall, London, E. C. 4, and to be returned as to such time not earlier than 1st February,* and not later than 31st March in the year in which the applicant is a candidate.

3. A candidate must have attained the age of 21 and not attained the age of 34 years on the first day of July of the year in which he offers himself for appointment, except that a candidate not over 37 years of age on that date will be allowed to defect from his school and may proceed by law from 1st August 1912 in the Navy or Army or in any other employment within the Secretary of State may decide to accept in the rank of any candidate as equivalent to March in Military employment for the purpose of this Regulation; provided that a certificate or certificates will be required establishing in the opinion of the Secretary of State the period and satisfactory character of the candidate's Navy, Military, or other employment.

4. [N.B.—] Every Indian must obtain a certificate of age and nationality in the form required in Regulation 12. As the production of this certificate is a necessary condition of appointment, intending candidates are advised to procure it previous to sending in their applications. The certificate is to be obtained from the India Office together with the application form of application or at the nearest Indian agent's office.]

5. Every candidate, except as provided in Regulation 5, must be a natural born subject of His Majesty of European descent, and at the time of his birth his father must have been a British subject, whose natural-born or naturalized in the United Kingdom. The Governor of the Secretary of State in Council whether a candidate satisfies this condition shall be fixed. A candidate must also be of good moral character and sound bodily health, and, in the opinion of the Secretary of State for India in Council, be all respects suitable to hold an appointment in the Indian Public Works Department or State Railway Department.

6. Indians of India who, were as heretofore provided, are British subjects and are not qualified under Regulation 5, are eligible for appointment, and shall be selected in the order of 12 per cent of the total number of Assistant Engineers thus provided, if otherwise duly qualified.

* Applications from candidates not subject to the District Engineer may be submitted before the date and, where the India Office cannot accept them, with candidates except by India, such applications must be submitted as early as possible.

Provided that a ruler or subject of any State in India is present at whom the Government-General in Council has made a declaration under section 36-A of the Government of India Act, 1935, as amended by section 3 of the Government of India (Amendment) Act, 1937, will be considered eligible.

6. Candidates must produce evidence that they have either (1) obtained one of the University Degrees mentioned in Appendix 1 or (2) passed the A.M.I.C.E. examination; or (3) obtained such other Diploma or Certificate in Engineering as the Secretary of State may decide to accept in any particular case.

7. It is preferred that candidates should have taken a college course and obtained one of the degrees listed in Appendix E. It is desirable that in addition, those should have had at least one full year's practical experience of Civil Engineering under a qualified civil engineer at the time when they appear before the Entrance Commission. Those with qualifying diploma has been obtained without a college course should have had a full three years of such advanced experience. In the event of any candidate being selected on his or her, in the opinion of the Entrance Commission, that he or she has not obtained the above mentioned qualifications, he or she will be required to have sufficient practical experience, to make up the above mentioned deficiencies, in the period of one year. In the event of a candidate being selected again, and his final appointment will be made dependent upon the results of such experience.

4. Candidates must be prepared, if asked upon, to attend at the India Office, at their own expense, for a personal interview with the Selection Committee, which usually meets at the end of April or early in May in each year.

8. They will further be required, before final approval by the Secretary of State is granted, to appear, at their own expense, before the Medical Board of the India Office for examination as to their physical fitness for service in India.

The Regulations governing the physical examination of candidates for the Public Works and State Railway Departments of the Government of India are given in Appendix V.

*99. Referred candidates will also be required to satisfy the Secretary of State of their ability to ride.

11. They will, on appointment, be provided with a free first-class passage to India and they will be expected to proceed either about the end of September or the year in which they are appointed.

There pay will begin from the date of their landing in India, and, if they so desire, they will be able to claim an advance of two months' pay, convertible by monthly instalments of one-third of salary. Of this advance a portion not exceeding one-half may be drawn in England.

12. They will enter the service as Assistant Engineers, on a salary of Rs. 4,500 a year (equal to 12. 44. one rupee, 44 Paisa).

12. The instruments required by Assistant Engineers are supplied to them in India.

16. Periodicals as to pay, provision, etc., are contained in Appendices III and IV.

The Future

Other authors have found that the use of a single, non-specific, questionnaire to assess work-related factors is inadequate for the purpose of identifying specific work-related factors.

APPENDIX 1

Notes in List B.—In the case of candidates who matriculated after 30th June 1914 the above degrees will be accepted only if (1) the Matriculation or other entrance examination accepted by the Institution of Civil Engineers in the Engineering course in the University has been passed, and (2) a regular course of study comprising not less than three Academic years has been pursued in the University between the passing of such Matriculation or other entrance examination and the passing of the final examination for the degree.

But Indians who have taken an Indian degree which exempts them from part of the University course will be regarded as having satisfied condition (1), and will be exempted from condition (2) if their degree has been obtained in less than three years in accordance with the Regulations of the University concerned.

APPENDIX II.

Particulars regarding the certificate of age and nationality to be obtained by candidates who are Subjects of India.

A.—Rules for Candidates born within His Majesty's Dominions.

1. A candidate who is resident in British India must obtain a certificate signed either (a) by the Secretary to Government (or his local deputy) of the province in which his family resides, or (b) by the Commissioner (or his local deputy) of the district in which his family resides.
 2. A candidate who is resident in a Native State must obtain a certificate signed by the highest Political Officer (or his local deputy) accredited to the State in which his family resides.

3. The certificate required must be to the following effect:—
 "I hereby certify that _____ has submitted the proofs of his birth detailed below, and has satisfactorily shown that he was actually born on or about the date stated, viz. the _____ day of _____, 18____, at a place within His Majesty's dominions."

(If necessary delete)

and the nature of the evidence produced must be such as to satisfy the officer who issues the certificate.

4. The documentary evidence which a candidate may be expected to produce in order to obtain such certificate comprises:—

- (a) The birth record.
- (b) Family books.
- (c) The candidate's account books showing entries relating to his birth.
- (d) The record of attendance in the registers of the school in which the candidate was educated, and the names of the candidate's age at various periods of his examinations.
- (e) If the candidate is uneducated, a certified copy of his application to the Registrar in Form A.

Oral testimony from persons able to give relevant evidence may also be taken.

5. If a candidate has proceeded to England without obtaining a certificate, the certificate may be presented to his father or guardian on production of the original evidence.

E.—*Rules for candidates not born within His Majesty's Dominions.*

4. The rules are the same as the foregoing except that a candidate not born within His Majesty's dominions must also prove that he is the son or grandson of a person born in those dominions, and in his case the term of certificate must be not as in paragraph 3 above but as follows:—

"I hereby certify that _____ has submitted the proofs of his birth detailed below * and has satisfactorily shown that he was actually born on or about the date stated, viz., the _____ day of _____ 18____, and that he was born at a place within His Majesty's dominions, but that his ^{father} ~~grandfather~~ was a person born in those dominions."

Do. 2nd year of service ..	10,800		
Do. 1st year of service ..	10,000		

4. The increments will be given half-approved service only, and in accordance with the rules of the department.

Exchange or repatriation allowance will not be granted to leave holders.

5. Privileges above the grade of Executive Engineer are dependent on the occurrence of vacancies in the permanent establishment, and are made wholly by selection; more security is accorded to confer on them to promotion.

APPENDIX IV.

PARTICULARS RELATING TO PENSION, PENSION FUND, AND LEAVE.

(A F.—This Appendix is compiled from the regulations for the same being, and is subject to alterations from time to time. The full rules and pension rules are contained in the Civil Service Regulations published by the Government of India.)

1. The following is a summary of the principal pension rules applicable to Engineers regulated in the Imperial Service by the Secretary of State from the United Kingdom.

An officer is eligible for a pension on voluntary retirement after completing 10 years' qualifying service or attaining the age of 55 years. If at an earlier date he is compelled to retire from the Service through ill-health not caused by illness or intemperance in India, he becomes eligible for an invalid pension as a gratuity according to the length of his service.

The amount of pension or gratuity is regulated as follows:—

After a service of less than ten years, an invalid gratuity not exceeding one-twentieth of the emoluments for each completed year of service.

* Officers of the Assistant Class will ordinarily pass into the executive class in the 11th year of service, but an Imperial Engineer may draw more than Rs. 1,000 per annum when he holds charge of a Division or a charge of equal importance.

After a service of not less than 20 years or should prove not exceeding the following amounts:—

Years of completed service.	Maximum limit of pension.
10	Rs 1,000 a year.
15	Rs 1,500 a year.
20	Rs 2,000 a year.
25	Rs 2,500 a year.
30	Rs 3,000 a year.
35	Rs 3,500 a year.
40	Rs 4,000 a year.
45	Rs 4,500 a year.
50	Rs 5,000 a year.
55	Rs 5,500 a year.
60	Rs 6,000 a year.
65	Rs 6,500 a year.
70	Rs 7,000 a year.
75	Rs 7,500 a year.
80	Rs 8,000 a year.
85	Rs 8,500 a year.
90	Rs 9,000 a year.
95	Rs 9,500 a year.
100	Rs 10,000 a year.

After a service of not less than 20 years, a retiring pension not exceeding the following amounts:—

Years of completed service.	Maximum limit of pension.
20 to 25	Rs 4,000 a year.
25 and above	Rs 5,000 a year.

Officers who have shown special energy and efficiency during an effective service of three years in certain appointments may, at the discretion of the Government of India, be allowed an additional pension of Rs. 1,000 a year, subject to the condition that the officer must not retire voluntarily before the completion of a total qualifying service of 20 years.

Subject to certain prescribed conditions, retiring pensions are now issued at the rate of one-twentieth of Rs. 10, the rates to pensioners meeting or exceeding in which the Indian Government ranks in all legal ranks.

2. A general Provident Fund in which all Civil Engineers entering the Public Works Department in the future will subscribe has been established for all Civil Engineers of the Department on the following basis:—

(1) The contribution is compulsory up to 10 per cent, on salaries, and not more than a further 10 per cent voluntary contribution. Contributions are on terms of any kind and are optional.

(2) Contributions entered on such payments are annually credited by Government to each officer's account, the rate being at present 4 per cent per annum.

(3) The sum which thus accumulates to the credit of an officer in his absolute property, subject to the rules of the Fund, and is handed over to him immediately on quitting the service; or, in the event of his death before retirement, to such person or persons as, under the rules of the Fund for the time being in force, may be entitled thereto.

(4) Other forms of life insurance will, however, if they fulfil certain conditions, be accepted in lieu of the contributions in (3).

LEAVE.

3. The following is a summary of the principal regulations relating to the leave entitlements in Engineers appointed to the Imperial Service by the Secretary of State from the United Kingdom.

(a) Short Leave.

4. Privilege Leave is a holiday which may be granted to the entitled one-fourth part of the time that an officer has been on duty without interruption; and it may be accumulated up to three months, valued by 10 months' duty. During privilege leave the officer retains a lien on his appointment, and receives an allowance equal to the salary which he would receive if he were on duty in the appointment in which he has a lien. An interval of not less than six months must elapse between two periods of absence on privilege leave.

Privilege leave may be granted in Furlough, special leave, or extraordinary leave without allowance. For whole period of leave taken in combination is known as combined leave. Combined leave cannot be granted for a shorter period than six months, nor, except on medical certificate, may it be extended beyond two years.

5. Extraordinary leave without allowance may be granted in case of necessity, and must be taken specified case, only when no other kind of leave is applicable. It may be granted in combination of other leave.

6. Ordinary leave in India for a minimum of two days, usually with 1 day of average salary, may be granted to an officer proceeding on or returning from leave out of India, or on movement in suitable leave, to reach the post of re-employment or to begin his appointment. It is admissible only at the end, and not at the beginning, of combined leave.

7. Short leave is also granted to enable officers to appear at examinations, etc.

(b) Long Leave.

8. Furlough and special leave with allowance (see paragraph 10) are admissible to an appropriate maximum amount of six years during an officer's service. The amount of furlough "earned" is calculated on an officer's active service, and the amount "due" is that amount less any enjoyment.

Furlough without medical certificate can, if due, be generally taken after eight years' active service, and again after intervals of not less than three years' continuous service. It is limited to two years at a time.

Furlough on medical certificate may be granted (a) to an officer who has rendered three years' continuous service, but not more than two years, but capable of extension up to three years, and (b) to an officer who has not rendered three years' continuous service, up to one year at any one time, and up to a total longer period, if any (but not exceeding two years), as the officer may have furlough "due" a lien.

g. The alignment allowed by the design is as follows:

(3) During the first two years of layoff, without medical certificate and during no mark of layoff with medical certificate as may be 100% half average salary subject to certain maximum and minimum limits.

(c) After termination of the period, in which the foregoing allowances are admissible,—a measure of average salary, subject to certain conditions and maximum levels.

ic, special loans may be granted at any time for not more than six months, with interests at a special rate, all interest, calculated as during forbearance, are given during the first six months only, whether taken in one or more installments.

Causal Model

12. *Leaves of absence, whether on furlough or on privilege leave, can never be claimed as of right, and it often is a matter of the discretion of Government.*

12. After five years' continuous absence from India, an officer is considered to be out of the service and all Governmental duties.

13. When loans and advances other than privilege loans pay are pulled in the House Treasury, as is a Colony where the standard of currency is gold, upon an assumed rate sterling at the rate of exchange laid on the table being for the adjustment of financial transactions between the Imperial and Indian Treasuries, unless any other rate has been specifically authorized, but for the present the rate of conversion is subject to a minimum of 1s. to the rupee. Privilege loans pay were issued from the House Treasury (this is only ascertainable where privilege loans is combined with other loans) is authorized to be paid to the rupee.

PUBLISHED AS BY THE PRINCIPAL LIBRARIAN OF CALCUTTA AND ASSOCIATE TO THE
PUBLIC WORKS DEPARTMENT OF THE GOVERNMENT OF INDIA.

Notes/Three Regulations are published for the convenience of candidates and readers to enable them to ascertain the probable time of their coming up to the examination. It is to be desired that all candidates should be ready to appear at the examination at the time and place specified. It is to be desired that all candidates should be ready to appear at the examination at the time and place specified. It is to be desired that all candidates should be ready to appear at the examination at the time and place specified.

It is not the practice to communicate to consultants who may be reported as physically unfit for service in India the reasons for the Medical Board's opinion.

General Physical Requirements

1. A candidate must be in good mental and bodily health, and free from any physical defect likely to interfere with safe and comfortable use of drugs.

2. In the examination of candidates the Medical Board will apply the following table of corrections of age, height, and chest girth:—

Regist without class.		Age 22 and upwards.		Class.	
				Costs when expended. £ to sh.	Range of expenditure. (pence).
674	and under 65	14	14	0	3
65	.. 65	13	13	0	3
68	.. 70	11	11	0	2
70	.. 75	10	10	0	24
75	and upwards	10	10	0	24

a. Measurement of Height.—The candidate will be placed against the standard with his feet together and his weight thrown on the heels and set on the soles of the feet. He will stand erect without leaning, and with the heels, calves, buttocks, and shoulders touching the standard. The knee will be depressed to bring the vertex of the head level under the horizontal bar, and the height will be noted in terms of an inch to eighth. In the Indian Police Force a maximum height of 5 feet 6 inches is required, and in other departments on fixed scale of height is imposed.

[illegible]

6. The heating must be gradual.

4. The sample without the dominant.

5. The teeth in good order, α_2 , decayed or broken teeth must be properly shaped or crowned, and broken teeth replaced by artificial teeth where necessary for effective mastication.

3. The plant must be well drained, the leaves well leaved out.

9. Magnesium, Hydrochloric, Sulfuric, Nitric, or other acids in excess of 10% by weight, or other conditions likely to cause corrosion of a flammable gas, or other conditions likely to cause such corrosion.

19. The table, last, and two more, on the left, are not numbered, with this and proper notice of all the rest.

12. A candidate must have no congenital malformation or defect likely to interfere with efficiency.

13. A candidate must not be the subject of chronic skin disease.

14. Diseases of previous origin or chronic disease pointing to an impaired constitution will disqualify.

15. The regulations as to the standard of vision required are shown separately for each department.

In all cases of "colour blindness" a note of the same will be made on the candidate's papers. Candidates may, if they wish it, undergo a preliminary examination by the Medical Board, which meets at the India Office every Tuesday, under the following conditions:—

(a) Applicants must be introduced to the Under Secretary of State, India Office, Whitehall, London, accompanied by a list of two referees, and a statement as to the particular appointment which the candidate desires to obtain.

(b) Candidates must pay their travelling expenses.

(c) Candidates considered to be unfit by the Medical Board at this preliminary examination are not bound to accept its opinion, but may, at their own risk, continue their studies, with the knowledge that they will have to submit themselves for a final medical examination by the Medical Board, prior to the examination, as to their appointment.

(d) On the other hand, it must be distinctly understood that the preliminary examination by the Medical Board is held solely for the candidate's information, and that, if when that examination he is reported to be apparently fit, he has not so that moment any claim to be accepted as physically fit which he presents himself for the final Medical Examination, upon which alone his acceptance or rejection will depend. Candidates may be considered fit for the service at the preliminary examination, but may be found at the final examination to be unfit, either on account of some physical defect which did not exist or proved undetected at the preliminary examination, or for other reasons.

Restrictions as to FOR STRABISMUS OR TURN.

1. If strabismus in one or both eyes exists, a candidate may be passed provided the strabismus does not exceed 3° D, and if, with correcting glasses not exceeding 12 D, the strabismus of vision in one eye equals 1 and in the other 2, there being several stages of accommodation with the glasses.

2. If hyper accommodation does not disqualify a candidate, provided the loss, as the combined spherical and cylindrical lenses, required to correct the same of refraction, does not exceed 12 D; the strabismus of vision in one eye, when corrected, being equal to 2, and in the other 1, together with several stages of accommodation with the correcting glasses, there being no evidence of progressive strabismus in the strabismic eye.

3. A candidate having 300° hypermetropia not exceeding 4 D is not disqualified, provided the sight in one eye (when under the influence of spectacles) equals 1, and in the other eye equals 2 with 4 D glasses, or any lesser power.

4. If presbyopia or astigmatism does not disqualify, provided the loss or combined lenses required to correct the same of refraction do not exceed 4 D, and that the sight of one eye equals 1, and the other 2, with or without such test or lenses.

5. A candidate having a defect of vision arising from cataract of the lenses is disqualified if the sight of one eye is less than 1. In such a case the better eye must be monocular. Defects of vision arising from pathological or other changes in the deeper structures of either eye, which are not referred to in these rules, may exclude a candidate.

6. If eyes are any amount emmetropic, subject to the risk of degeneration or metamorphosis, in either eye, may cause the rejection of a candidate. Any imperfection of the colour sense is a disqualification for appointment to the engineering branch of the Railway Department. In other cases the risk, and of imperfection of colour sense will be noted on the candidate's papers.

THE AIR APPOINTMENTS UNDER THE INDIA DEPARTMENT'S DECLARATION, AS FULFILLING, IS SUBJECTS FREE EXAMINATION.
